

Experience the only office chair
with space age, cooling technology.

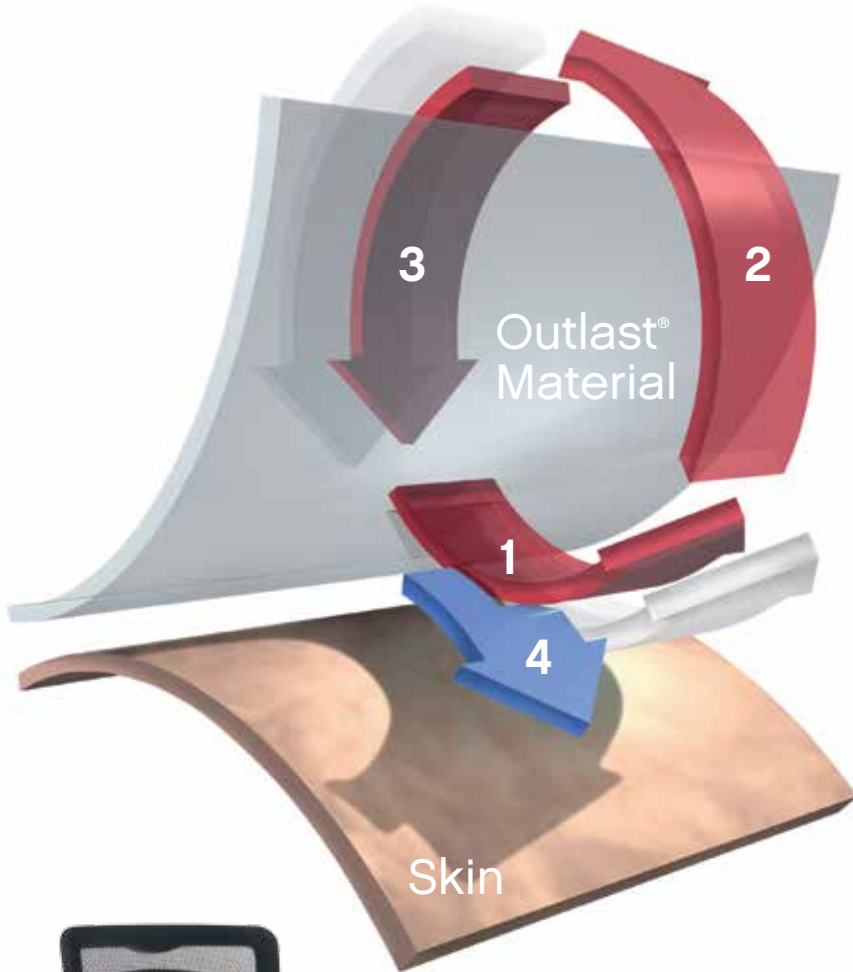

Add cool comfort to Eurotech® chairs
with OUTLAST® cooling technology.
Now available through the Fabrix program.

sit smarter.™ **eurotech.**
a raynor group company

Outlast® Technology is now a cool new option for your next chair.

Eurotech's Fabrix Program allows you to customize every chair's upholstery. Now you can add Outlast® technology as well. With Outlast, your body's temperature stays regulated throughout the day, to keep you cool and comfortable.

- Works to control skin temperature and the impact of moisture
- Proactively eliminates perspiration, instead of just wicking it away
- Absorbs, stores and releases excess body heat to maintain a consistent, balanced temperature

Be sure to equip all your seating choices with Outlast technology, and bring a little bit of cool to your office game.

How Outlast technology works

- 1** Excess heat is absorbed
- 2** Heat is stored
- 3** Stored heat is released
- 4** Cooling effect

\$50 List Per Chair*

* Only available with **fabrix** custom upholstery chairs.
